

Aquila McKenzie

Aquila is an inspiring teacher and exhibiting artist with lifelong experience as an art practitioner in a range of painting media. She trained at RMIT, Perth Tech and CMC TAFE. She brings enthusiasm and encouragement in abundance to her classes, combined with an excellent knowledge of the use of acrylic paint, mediums, colour pigments and paint technology. Her classes incorporate design principles and colour theory. You will have the freedom to foster your creativity in a relaxed, playful atmosphere and to develop your skills. The culmination of the year's work will be an exhibition of students' completed works. Very exciting!
